EXPERIENCE

IndiaNIC Infotech Limited

Jul 2021 - May 2022

Junior Software Engineer

- Planned test schedules or strategies in accordance with project scope or delivery dates.
- Analyzed user needs and software requirements to determine the feasibility of design within time and cost constraints.
- Collaborated with departmental leaders to establish organizational goals, strategic plans, and objectives.
- Demonstrated ability to manage multiple tasks while remaining adaptable and flexible.
- Modified existing software to correct errors, adapt it to new hardware, upgrade interfaces, and improve performance.
- Wrote well-designed, testable code.
- I was also a trainer for new interns and train them for the company's growth.
- I expand my knowledge in JavaScript, React Js, Next Js, Redux, Material UI, Git Lab, Git Hub

CERTIFICATION

• Smart Gujarat for new India Hackathon

Student start-up and innovation policy(SSIP)

27-28 February 2020

- I participated with my team and we developed Lawyer Portal using PHP, MySQL, JavaScript, and Material UI.
- The main feature of this portal is clients regularly connect with their advocate by chat mechanism.
- Additionally, clients log in to their dashboard by receiving a login link from Gmail.

EXPERIENCE

Infolabz IT Services

Jun 2018 - May 2019

Trainee PHP Developer

- Developed system interaction and sequence diagrams.
- Created Web models and prototypes that included physical, interface, logical, and data models.
- Developed databases that supported Web applications and Web sites.
- Collaborated with management to develop e-commerce strategies and integrate these strategies with Web sites.
- Wrote supporting code for web applications.
- I expand my knowledge in PHP, MySQL, JavaScript, , HTML, CSS

PROJECTS

Recruitment Portal

- It is an IndiaNIC Infotech Ltd. home project.
- This project is basically for doing all offline recruiting processes in the online portal.
- There are a number of features like an automatic interview question paper generator, providing feedback as a rating, number of job openings, and number of departments.

Assessment Portal

- The portal is mainly intended for IndiaNIC Infotech Limited company where people at different positions in the hierarchy can efficiently Collaborate, Work, & Report to each other. It mainly includes Associates (this includes Jr. and Sr. Software Developers, within and out of the firm), Project Managers, Cluster Heads, & Administrators. Here the users can perform different tasks like Code Review, Reporting, and many more as per the norms of my respective company.

CERTIFICATION

- **Advance Network Security and Cyber Security**

SpyderWave Technologies

January 2020

- In this webinar, I learned too many things about Networking and Cyber Security.
- The professional tutor gave deep knowledge about Firewall and MySQL Injection on live websites. Also, tutor gave basic knowledge about LAN, MAN, WAN, and creating router models in VLAN network in Cisco Packet Tracer.

- **Crash Course on Python**

Coursera Google Course

Jun 2020

In this course I learned basic python programming and Image text recognition System.
